

they're  
giant fuzzy  
stuffed animals.  
hug them.

**What?** Squishables are giant adorable stuffed animals in sphere form! They're unbelievably soft, freakishly cuddly, and cuter than a basket of kittens and puppies. Squishables are 15 inches tall, made of all new polyester fiber. They're for ages 3 and up and also ages 150 and under. They rock.

**Why?** Well, it's kind of a funny story. There are two of us who run Squishable: Zoe and Aaron. After the 2005 tsunami, we headed over to Asia to volunteer our tech skills and generally help out...and while there we found the round fuzzy Alligator and a Piggy in a shop. We bought them for fun and didn't think about it again until our friends started demanding some too. These days we're designing our own and sell about 35 different Squishies. My goodness are they cute.

**Tell Me More!** We advertise primarily with webcomics and other artists to help support their work, and we donate every month to charity for each picture we receive from our users. We also have a sideline called "Squishable Understudies" that are mostly fair trade certified or sustainable. You can find more information about Squishable Philanthropy at <http://www.squishable.com/s/charity>

**These Look Nifty!** Yeah, they really do. But anyway, check us out at [www.Squishable.com](http://www.Squishable.com). If that's not enough, you can check out our Gallery of user pictures (<http://www.squishable.com/s/gallery>), and the Squishable Travel Blog (<http://www.squishable.com/travelblog/>). Or you can take a look at some of our fan activity on Facebook (<http://www.facebook.com/pages/Squishablecom/82290115379>) or Twitter (<http://twitter.com/squishable>). Still have questions for us? Just send us a note at [HugMe@Squishable.com](mailto:HugMe@Squishable.com). Have fun!
